THE ANNALS OF MATHEMATICAL STATISTICS,

Vol. XII (1941)—Vol. XVII (1946)^{1) 2)}

内 田 良 男

統計数理研究所

(昭和 23 年 5 月 4 日)

近時統計の方法への關心が、とみに高まり、各種の分野に於いて此の方法が採擇されるに到つて來た。統計的基礎理論並びに應用理論の研究結果を發表する各種の文献が、巷間に眺められる。之等を一應整理しつゝあるが今回は The Annals of Mathematical Statistics の目録の一部を紹介する。該誌は、諸應用分野に於いて生起した問題の本質に觸れ、核心を衝き、統計學として同傾向の問題を一括處理する統計数理に關する論文を集録したものである。

該誌刊行の趣旨に關しては、既に北川敏男先生が、統計数理研究に紹介されて居るが、再刊の此の際に、更めて、極く簡単に紹介して置くのは必ずしも徒事ではなからう。即ち、約百年の歴史を持つ米國統計協會誌 (The Journal of the American Statistical Association) の創刊當時に較べて、統計的方法が科學として偉大な發展を遂げたので、統計に關する理論と、その應用分野の論説とを併せて紹介するの

難な情況に立到つた。従つて、各種應用分野に於いて根據となる基礎理論を紹介するため、ミシガン大學教授 Harry C. Carver 編輯の該誌を創刊する」と W. I. King は説明してゐる。

Vol. XII, No. 1 (March, 1941)

- (53) Asymptotically Most Powerful Tests of Statistical Hypotheses. Abraham Wald
(54) Experimental Determination of the Maximum of a Function.

Harold Hotelling

- (55) On a Statistical Problem Arising in Routine Analyses and in Sampling Inspections of Mass Production. J. Neyman
(56) A Concise Analysis of Certain Algebraic Forms. Franklin E. Satterthwaite
(57) A Symmetric Method of Obtaining Unbiased Estimates and Expected Values.

Paul L. Dressel

- (58) Determination of Sample Sizes for Setting Tolerance Limits. S. S. Wilks
(59) On a Certain Class of Orthogonal Polynomials. Frank S. Beale
(60) The Skewness of the Residuals in Linear Regression Theory. P. S. Dwyer

Vol. XII, No. 2 (June, 1941)

- (61) The Cycle Effects of Linear Graduations Persisting in the Differences of the

1) 統計数理研究第 I 巻第 1 號 (昭和 16 年 9 月) 統計科學研究會編 (九州帝國大學理學部内) に於いて北川敏男氏が Vol. I-XI を紹介されてゐる。尚ほ、該誌には、藤原松三郎氏の確率論、保険數學 (統計數學に關する 1900 年以前の文献目録 (I) も亦、掲載されてゐる。

2) 各論文に對應する番號は、Vol. I (1930) の最初の論文からの“通し番號”である。Vol. XII, No. 3 & No. 4 の目次を見る事が出来なかつたので、Vol. XIII, No. 1 の最初の論文を 100 番として、以下通し番號を附した。機會を見て挿部を補充致し度い。Vol. XII No. 1 & No. 2 は九州大學數學教室の、其他は東京大學圖書館の藏書から寫したものである。

- Graduated Values. Edward L. Dodd
- (62) On the Distribution Wilks' Statistic for Testing the Independence of Several Groups of Variates. A. Wald and R. J. Brookner
- (63) The Mean Square Successive Difference. J. von Neumann, R. H. Kent, H. R. Bellinson and B. J. Hart
- (64) The Return Period of Flood Flows. E. J. Gumbell
- (65) On the Foundations of Probability and Statistics. R. von Mises
- (66) Probability as Measure. J. L. Doob
- (67) Discussion of Papers on Probability Theory. R. von Mises and J. L. Doob
- (68) Continued Fractions for the Incomplete Beta Function. Leo A. Aroian
- Vol. XIII, No. 1-(March, 1942)
- (100) Distribution of the Serial Correlation Coefficient. R. L. Anderson
- (101) Serial Correlation and Quadratic Forms in Normal Variables. Tjalling Koopmans
- (102) A Generalized Analysis of Variance, Franklin Satterthwaite
- (103) Distribution in Stratified Sampling. Poul H. Anderson
- (104) Solution of a Mathematical Problem Connected with the Theory of Heredity. S. Bernstein (Translated by Emma Lehmer)
- (105) Some Recent Advances in Mathematical Statistics, I. Burton H. Camp
- (106) Some Recent Advances in Mathematical Statistics, II. C. C. Craig
- Vol. XIII, No. 2-(June, 1942)
- (107) The Progeny of an Entire Population. Alfred J. Lotka
- (108) Asymptotically Shortest Confidence Intervals. A. Wald
- (109) Grouping Methods. P. S. Dwyer
- (110) On the Correct Use of Bays' Formula. R. v. Mises
- (111) An Iterative Method of Adjusting Sample Frequency Tables when Expected Marginal Totals are known. Frederick F. Stephan
- (112) Estimation of Volume in Timber Stand by Strip Sampling. A. A. Hasel
- (113) Tabulation of the Probabilities for the Ratio of the Mean Square Successive Difference to the Variance. B. I. Hart and John von Neumann
- (114) Cumulative Frequency Functions. Irving W. Bure
- Vol. XIII, No. 3-(September, 1942)
- (115) Additive Partition Functions and a Class of Statistical Hypotheses. J. Wolfowitz
- (116) On the Theory of Testing Composite Hypotheses with one Constraint. Henry Scheffé
- (117) On the Problem of Multiple Matching. I. L. Battin
- (118) On the Choice of the Number of Intervals in the Application of the Chi-Square Test. H. B. Mann and A. Wald
- (119) Limited Type of Primary Probability Distribution Applied to Annual Flood Flows. Bradford F. Kimball
- (120) Linear Restrictions on Chi-Square. Franklin E. Satterthwaite
- (121) Systems of Linear Equations with Coefficients Subject to Error. A. T. Lonseth
- (122) On Mutually Favourable Events. Kai Lai Chung
- (123) Observations on Analysis of Variance Theory. Hilda Geiringer
- Vol. XIII, No. 4-(December, 1942)
- (124) On the Ratio of the Variances of Two Normal Populations. Henry Scheffé
- (125) Setting of Tolerance Limits when the Sample is Large. Abraham Wald
- (126) Statistical Prediction with Special Reference to the Problem of Tolerance Limits. S. S. Wilks

- (127) Generalized Poisson Distribution.
Franklin E. Satterthwaite
- (128) The Construction of Orthogonal Latin Squares. Henry B. Mann
- (129) A Method of Determining Explicitly the Coefficients of the Characteristic Equation. P. A. Samuelson
Vol. XIV, No. 1-(March, 1943)
- (130) Some New Method in Matrix Calculation.
H. Hotelling
- (131) On Solutions of the Behrens-Fisher Problem, Based on the t-Distribution.
Henry Scheffé
- (132) An Extension of Wilk's Method of Setting Tolerance Limits. Abraham Wald
- (133) Asymptotic Formulas for Significance Levels of Certain Distribution.
Alfred M. Peiser
- (134) Generalization of Poincare's Formula in the Theory of Probability. Kai Lai Chung
- (135) Tables for Testing Randomness of Grouping in a Sequence of Alternatives.
Frieda S. Swed and C. Eisenhart
Vol. XIV, No. 2-(June, 1943)
- (136) On Transformations Used in the Analysis of Variance. J. H. Curtiss
- (137) On Fundamental Systems of Probabilities of a Finite Number of Events.
Kai Lai Chung
- (138) On the Efficient Design of Statistical Investigations. Abraham Wald
- (139) Some Significance Tests for Normal Bivariate Distributions.
D. S. Villars and T. W. Anderson
- (140) Symmetric Tests of the Hypothesis that the Mean of One Normal Population Exceeds that of Another.

- (157) An Exact Test for Randomness in the Non-Parametric Case Based on Serial Correlation. A. Wald and J. Wolfowitz
- (158) On a General Class of "Contagious" Distributions. W. Feller
- (159) On the Construction of Sets of Orthogonal Latin Squares. H. B. Mann
- (160) On the Dependence of Sampling Inspec-

- tion Plans upon Population Distributions.
Alexander M. Mood
- (161) On Card Matching. T. W. Anderson
Vol. XV, No. 1-(March, 1944)
- (162) On the Theory of Systematic Sampling,
I. William G. Madow and Lillian Madow
- (163) On the Probability Theory of Linkage
in Mendelian Heredity. Hilda Geiringer
- (164) The Covariance Matrix of Runs Up and
Down. M. Levene and J. Wolfowitz
- (165) On the Measure of a Random Set.
H. E. Robbins
- (166) On the Distribution of the Radical Stan-
dard Deviation. Frank E. Grubbs
- (167) A Matrix Presentation of Least Square
and Corelation Theory with Matrix
Justification of Imposed Methods of
Solution. Paul S. Dwyer
- (168) On the Statistics of Sensitivity Data.
Benjamin Epstein and C. West Churchman
Vol. XV, No. 2-(June, 1944)
- (169) Further Contributions to the Problem
of Serial Correlation. Wilfried J. Dixon
- (170) On a Statistical Problem Arising in the
Classification of an Individual into One
of Two Groups. Abraham Wald
- (171) Asymptotic Distribution of Runs Up and
Down. J. Wolfowitz
- (172) Statistical Analysis of Certain Types of
Random Functions.
H. Hurwitz and M. Kac
- (173) Random Alms. Paul R. Halmes
- (174) On Biases in Estimation due to the Use
of Preliminary Tests of Significance.
T. A. Bancroft
- (175) The Probability of Convergence of an
Iterative Process of Inverting a Matrix.
Joseph Dillman
- Vol. XV, No. 3-(September, 1944)
- (176) The Elementary Gaussian Processes.
J. L. Doob
- (177) On Cumulative Sums of Random Vari-
ables. Abraham Wald
- (178) Some Improvements in Weighting and
Other Exponential Techniques.
Harold Hotelling
- (179) On the Analysis of Certain six-by-six
Four-Group Lattice Design.
Boyd Harshbarger
- Vol. XV, No. 4-(December, 1944)
- (180) Some Extensions of the Wishart Dis-
tribution.
T. W. Anderson and M. A. Girschick
- (181) Statistical Tests Based on Permutation
of the Observations.
A. Wald and J. Wolfowitz
- (182) Error Control in Matrix Calculation.
E. E. Satterthwait
- (183) Inverse Tables of Probabilities of Errors
of the Second Kind. Emma Lehmer
- (184) Some Combinatorial Formulas with Ap-
plications and to Probable Values of a
Polynomial Product and to Difference of
Zero. L. C. Hsu
- (185) Ranges and Midranges. E. J. Gumbel
- Vol. XVI, No. 1-(March, 1945)
- (186) The Approximate Distributions of the
Mean and Variance of a Sample of Inde-
pendent Variables. P. L. Hsu
- (187) Sampling Inspection Plans for Continuous
Production which Insure a Prescribed
Limits on the Outgoing Quality.
A. Wald and J. Wolfowitz
