CONTENTS

Achievements of Professor Shiro IMAWAKI	1
ASUKA Hydrographic Data Collection By Hiroshi UCHIDA, Shiro IMAWAKI, Hiroshi ICHIKAWA and the ASUKA Group	21
Barotropic and baroclinic volume transports of the Kuroshio estimated by IES measurements By Shin-ichiro UMATANI and Koji KAKINOKI	33
Eulerian Mean Sea-Surface Velocity Field of the South Indian Ocean Derived by Combining Satellite Altimeter and Drifter Data By Benny N. PETER, Daisuke AMBE and Shiro IMAWAKI	37
Numerical investigation of thermal stress and dislocation density in silicon ingot during a solidification process By Xuejiang CHEN, Satoshi NAKANO, Lijun LIU and Koichi KAKIMOTO	45
Variations of velocity and transport associated with coastal cyclonic eddies off Shikoku, Japan estimated from moored current meter and IES data By Koji KAKINOKI, Shiro IMAWAKI, Kaoru ICHIKAWA, Shin-ichiro UMATANI and Motohiko KASHIMA	53
Interannual variability of mesoscale eddy activity at the subtropical fronts region and its influence on the generation of Kuroshio large meander By Motohiko KASHIMA, Kaoru ICHIKAWA and Makoto SATAKE	61
Simple LADCP data processing method with DGPS By Tsutomu SAITO	69
Tidal currents north of the Yaeyama Islands as seen by HF radars By Kaoru ICHIKAWA, Ryoko TOKESHI and Shoichiro KOJIMA	77

Experimental Estimate of Geostrophic Current from Trajectory Data of Sea-Surface Drifting Buoys By Daisuke AMBE and Kaoru ICHIKAWA	83
Distribution of oxygen stable isotope ratio along 115° E section across the continental slope of the Antarctica By Shigeru AOKI	89
Precise Detection of Grounding Line at Antarctica Using SAR Interferometry By Tsutomu YAMANOKUCHI, Koichiro DOI, Kazuo SHIBUYA and Shigeru AOKI	95
A property of wavelet analysis using Morlet function By Takashi SETOU, Manabu SHIMIZU, Hiroshi KURODA, Takahiko KAMEDA, Akira OKUNO, Hiroshi YOSHINARI, Daisuke AMBE, Joon-Soo LEE and Kazuhiro AOKI	101
Customary Law Related to Sato-Umi By Tetsuo YANAGI	105
Style of Sato-Umi Study —Interaction between Science and Society— By Tetsuo YANAGI	109
Long-term estimation of volume transport through the Tsushima Straits By Kazuya NISHIMURA, Naoki HIROSE and Ken-ichi FUKUDOME	113
Analysis of oxygen incorporation process in multicrystalline silicon for solar cell during unidirectional solidification process By Hitoshi MATSUO, Satoshi NAKANO, Koji ARAFUNE, Yoshio OHSHITA, Masafumi YAMAGUCHI and Koichi KAKIMOTO	119
On the Output for a Wind Turbine of Fixed-Pitch Angle Wings in Variable Speed Wind By Takashi KARASUDANI, Yuji OHYA and Kimihiko WATANABE	125
