About MI Lecture Note Series

The Math-for-Industry (MI) Lecture Note Series is the successor to the COE Lecture Notes, which were published for the 21st COE Program “Development of Dynamic Mathematics with High Functionality,” sponsored by Japan’s Ministry of Education, Culture, Sports, Science and Technology (MEXT) from 2003 to 2007. The MI Lecture Note Series has published the notes of lectures organized under the following two programs: “Training Program for Ph.D. and New Master’s Degree in Mathematics as Required by Industry,” adopted as a Support Program for Improving Graduate School Education by MEXT from 2007 to 2009; and “Education-and-Research Hub for Mathematics-for-Industry,” adopted as a Global COE Program by MEXT from 2008 to 2012.

In accordance with the establishment of the Institute of Mathematics for Industry (IMI) in April 2011 and the authorization of IMI’s Joint Research Center for Advanced and Fundamental Mathematics-for-Industry as a MEXT Joint Usage / Research Center in April 2013, hereafter the MI Lecture Notes Series will publish lecture notes and proceedings by worldwide researchers of MI to contribute to the development of MI.

September 2013
Masato Wakayama
Director
Institute of Mathematics for Industry

Workshop on

Algebraic constructions as a fundamental keystone of a safe and secure society

—Mathematics for guaranteeing the reliability of the cyber-society—

MI Lecture Note Vol.53, Institute of Mathematics for Industry, Kyushu University
ISSN 2188-1200

Date of issue: 26 December 2013

Editors: Yoshihiro SHIKATA, Kouichi SAKURAI, Takanori YASUDA, Xavier DAHAN
