## CONTENTS OF VOLUME XI

EBIHARA, Y., On the classical solution of the initial value problem for nonlinear wave equation.....	53
EBIHARA, Y. and NANBU, T., A remark on the initial-value problems for some quasi-linear parabolic equations.....	47
FUJINO, T. and KAMATA, M., $J$ -groups of orbit manifolds $D_p(4m+3, 8n+7)$ of $S^{8m+7} \times S^{8n+7}$ by the dihedral group $D_p$ .....	127
HAYASHI, T., Disjunction property in McCarthy's propositional knowledge systems .....	145
KATO, H., On a regularity of E. Hopf's weak solutions for the Navier-Stokes equations .....	15
KÔNO, K. and SAKAGUCHI, K., On the orthogonal exact designs for some polynomial responses.....	71
NAKAO, M., On the existence of bounded solution for nonlinear evolution equation of parabolic type .....	3
NAKAO, M., Decay of classical solutions of a semilinear wave equation.....	39
NAKAO, M. and NANBU, T., Asymptotic stability of a nonlinear second order evolution equation with unbounded damping .....	97
NAKAO, M. and NANBU, T., Existence and decay of solutions of a beam equation with a nonlinear damping term .....	103
NAKAO, M. and NARAZAKI, T., Existence and decay of solutions of some nonlinear wave equations in noncylindrical domains .....	117

(ii)

NANBU, T., The Cauchy problem for quasi-linear degenerate parabolic equations .....	83
ONO, A., Note on the Morrey-Sobolev type imbedding theorems in the strong $\mathcal{L}^{(p,\lambda)}$ spaces .....	31
ONO, A., Remarks on the Morrey-Sobolev type imbedding theorems in the strong $\mathcal{L}^{(p,\lambda)}$ spaces.....	149
SAIGO, M., A remark on integral operators involving the Gauss hypergeometric functions .....	135
津田丈夫, パスカルの定理の初等的証明 (TSUDA, T., An elementary proof of the Pascal's theorem).....	1
YAMAGUCHI, T., On the comparison of geodesic triangles on manifolds whose sectional curvatures are upper-bounded .....	25
