STATISTICAL SCIENCES

## *Contents*

	PAGE
Properties for circular nonparametric regressions by von Mises and wrapped Cauchy kernels ..... Yasuhito TSURUTA and Masahiko SAGAE	1
A combinatoric problem solved via algebra interpretation ..... Hideo HIROSE and Masanori TAKATOU	15
All-pairwise multiple comparison for normal variances ..... Tsunehisa IMADA	19
On direct kernel estimator of density ratio ..... Masanari MOTOYAMA and Yoshihiko MAESONO	27
Shifted binomial approximation for the Ewens sampling formula (II) ..... Hajime YAMATO	43
Asymptotic mean squared error of kernel estimator of excess distribution function ..... ..... Atsushi SHIMOKIHARA and Yoshihiko MAESONO	51
Predictive information criteria for robust relevance vector regression models ..... ..... Kazuki MATSUDA, Shuichi KAWANO and Sadanori KONISHI	65

# BULLETIN OF INFORMATICS AND CYBERNETICS

EDITOR-IN-CHIEF

YOSHIHIKO MAESONO

## EDITORIAL BOARD

Kazuo ANRAKU	Setsuo ARIKAWA	Sachio HIROKAWA
Hideo HIROSE	Seiichi IWAMOTO	Yasuo KAWAHARA
Hidefumi KAWASAKI	Genshiro KITAGAWA	Sadanori KONISHI
Masami KURANO	Hiroki MASUDA	Satoru MIYANO
Yoshihiro MIZOGUCHI	Mitsuhiro NAKAO	Ryuei NISHII
Shingo SHIRAHATA	Masayuki TAKEDA	Masayuki UCHIDA
Takashi YANAGAWA	Masami YASUDA	

## EDITORIAL ASSISTANTS

Kei HIROSE

Founder and Past Editor: Tosio KITAGAWA  
Past Editors: Setsuo ARIKAWA Takashi YANAGAWA

## RESEARCH ASSOCIATION OF STATISTICAL SCIENCES

Research Association of Statistical Sciences has been established in February 1941 by Professor Tosio Kitagawa (1909.10.3–1993.3.13), collaborated with about one hundred mathematical and statistical scientists in Japan. Its general objects were to promote and to extend mathematical and statistical methods for studying phenomena in social and natural sciences. The Association launched the *Bulletin of Mathematical Statistics*, the first international journal of statistics published in Japan, in 1941, and has published 19 volumes of the *Bulletin* during the period of 1941 and 1981. Main topics discussed in the earlier papers were sample survey, sampling inspection, design of experiments and statistical quality control, and those topics were extended to modern statistical inference, control theory, mathematical programming, cybernetics, data analysis, and informatics in later period. The importance was emerged of strengthening its activities in Information Science and Computer Science, and the Association changed the name of the *Bulletin* to the *Bulletin of Informatics and Cybernetics* in 1982(Vol. 20, No. 1 ~ 2). Now the *Bulletin* published papers covering the wide range of topics in Information Science, Statistical Science, and Computer Science. Original papers, and authoritative expository or review articles, will be accepted for publication in the *Bulletin of Informatics and Cybernetics* if judged consistent with the general objects via refereeing process.

### INFORMATION FOR CONTRIBUTORS

1. Manuscripts (pdf file) should be sent to the Editor-in-Chief  
Yoshihiko Maesono  
Faculty of Mathematics  
Kyushu University  
744 Motooka, Nishi-Ku  
Fukuoka 819-0395  
Japan.  
E-mail: maesono@math.kyushu-u.ac.jp
2. All papers are refereed.
3. Manuscripts should be submitted in English. It is understood that their contents are unpublished and are not being submitted for publication elsewhere.
4. When accepted for the publication the final manuscripts should be written in L<sup>A</sup>T<sub>E</sub>X using BIC style class file, which can be obtained from internet. Files are available from <http://bic.math.kyushu-u.ac.jp/>
5. Figures and tables should be printable together with the L<sup>A</sup>T<sub>E</sub>X text as a L<sup>A</sup>T<sub>E</sub>X output.
6. Authors should always keep a fully up-to-date version of the L<sup>A</sup>T<sub>E</sub>X text.
7. Page proofs will be sent to authors. No new material may be inserted in the text at the time of proofreading, except where advance permission has been obtained for the Editor.
8. The author is requested to pay for 100 copies of the reprint as page charges.
