Volume No. : 42

Title : Study Group Workshop 2012 Abstract, Lecture & Report

Editors : 佐伯修, 若山正人, 山本昌宏

Written In : Japanese

ISSN : 1881-4042

Published In : 2012年11月19日

Contents:

**July25-27 & 30-31, 2012**

**NTT Secure Platform Laboratories**

Trap-door discrete logarithm problems, or all-but-many encryptions: How to construct them?

	<b>1</b>
Abstract	1
Lecture	5
Report	17

**FUJITSU LABORATORIES LTD.**

A study of integer factorization problems

	<b>27</b>
Abstract	27
Lecture	30
Report	40

**Kao Corporation**

Mathematical structure for purchase of commodities

	<b>49</b>
Abstract	49
Lecture	50
Report	54

**OLM Digital, Inc.**

Geometrical and statistical issues in computer facial animation

	<b>61</b>
Abstract	61
Lecture	62
Report	84

### **Nippon Steel Corporation**

Brainstorming for getting an abstract framework for thinking to tackle social and industrial problems through a combination of geometry and algebra with analysis	<b>93</b>
Abstract	93
Lecture	97
Report	115

### **Railway Technical Research Institute**

Reconstructing space curves from chord measurement	<b>123</b>
Abstract	123
Lecture	126
Report	143

### **RIKEN / The University of Tokyo**

Dicke superradiance and spin-boson model in circuit QED	<b>149</b>
Abstract	149
Lecture	151
Report	171
