About MI Lecture Note Series

The Math-for-Industry (MI) Lecture Note Series is a successor to the COE Lecture Notes, published for the 21st COE Program “Development of Dynamic Mathematics with High Functionality”, sponsored by Ministry of Education, Culture, Sports, Science and technology-Japan (MEXT) (From 2003 to 2007).

The MI series reports lectures given by scholars invited under the following two programs: “Training Program of Ph.D. and new Master s in Mathematics as Required by Industry”, adopted as a Support Program for Improving Graduate School Education by MEXT (from 2007 to 2009); and Education-and-Research Hub for Mathematics-for-Industry”, newly adopted as a Global COE Program by MEXT (from 2008 to 2012).

July 2008
