CONTENTS

Interannual Variation of Water Temperature and Salinity in Deep Water West of the Tsugaru Strait By Kosuke MORI, Yutaka ISODA and Manabu SHIMIZU	1
Sea-surface dynamic height of the Kuroshio south of Japan estimated from inverted echo sounders and its error estimation By Koji KAKINOKI, Shiro IMAWAKI, Hiroshi UCHIDA, Hirohiko NAKAMURA, Shin-ichiro UMATANI, Ayako NISHINA, Hiroshi ICHIKAWA and Mark WIMBUSH	11
Analysis of temperature distribution in multi-crystalline silicon of a casting method with multi heater system By Satoshi NAKANO, Lijun LIU and Koichi KAKIMOTO	21
Comparison of velocities observed by the HF radar and satellite altimeters in the upstream of the Kuroshio By Ryoko TOKESHI, Kaoru ICHIKAWA, Satoshi FUJII, Kenji SATO and Shoichiro KOJIMA	29
Flow Characteristics over Complex Terrain Measured with Anemometer Equipped with Nacelle – For the Case of Cape – By Takanori UCHIDA and Yuji OHYA	35
Diagnosis of Flow Characteristics in Wind Farm using the Numerical Model “RIAM-COMPACT” By Takanori UCHIDA, Yuji OHYA, Ryo ARAYA, Masataka TANABE and Yasushi KAWASHIMA	53
