Challenges Faced by National University Hospitals:

- 1. Decreasing patient numbers
- 2. Increasing medical costs
- 3. Increasing medical malpractice
- 4. Increasing medical litigation
- 5. Increasing medical waste
- 6. Increasing medical risk
- 7. Increasing medical burden
- 8. Increasing medical pressure
- 9. Increasing medical stress
- 10. Increasing medical anxiety
- 11. Increasing medical tension
- 12. Increasing medical strain
- 13. Increasing medical fatigue
- 14. Increasing medical exhaustion
- 15. Increasing medical depletion
- 16. Increasing medical depletion
- 17. Increasing medical depletion
- 18. Increasing medical depletion
- 19. Increasing medical depletion
- 20. Increasing medical depletion
- 21. Increasing medical depletion
- 22. Increasing medical depletion
- 23. Increasing medical depletion
- 24. Increasing medical depletion
- 25. Increasing medical depletion
- 26. Increasing medical depletion
- 27. Increasing medical depletion
- 28. Increasing medical depletion
- 29. Increasing medical depletion
- 30. Increasing medical depletion
- 31. Increasing medical depletion
- 32. Increasing medical depletion
- 33. Increasing medical depletion

Future Vision

Internationalization Project has been launched as one of the future visions in the National University Hospital Council of Japan.
