CONTENTS

| | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Proposal of Designed Wind Speed Evaluation Technique in WTG Installation Point by Using the Meteorological Model and CFD Model By Takanori UCHIDA, Takashi MARUYAMA, Tetsuya TAKEMI, Yuichiro OKU, Yuji OHYA and Graham Li | 1 |
| Investigation of the Causes of Wind Turbine Blade Damage at Shiratakiyama Wind Farm in Japan – A Computer Simulation Based Approach – By Takanori UCHIDA, Takashi MARUYAMA, Hirohiko ISHIKAWA, Masaru ZAKO and Akira DEGUCHI..... | 13 |
| Vertical modes of quasi-geostrophic flows in an ocean with bottom topography – evolution equation and energetics – By Akira MASUDA..... | 27 |
| Coproduction of fishermen and citizens By Tetsuo YANAGI..... | 47 |
| Design of Toroidal Machine for plasma Turbulence Research By Keisuke MATSUOKA..... | 51 |
