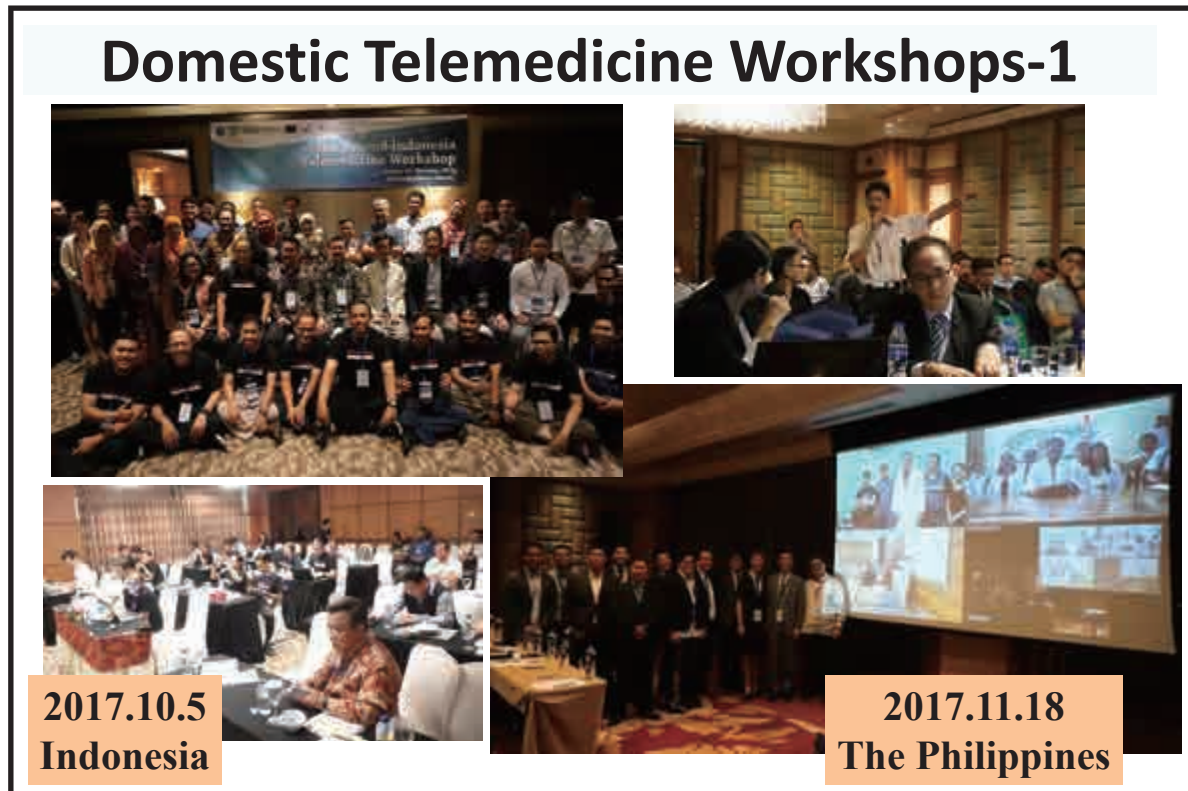

Figure 2-3 The domestic workshops in Indonesia and the Philippines.

Figure 2-4 The first telemedicine workshop in Chile, which is the first in Latin America.

“Master of the WGO” Award

The Master of the WGO Award is the highest honor the World Gastroenterology Organization (WGO) can bestow on a member and is granted only to those individuals who have provided outstanding dedication to the mission of the WGO and achieved distinction in such areas as scholarly research, teaching, and service to WGO and the community at large.

The Award was created to recognize these contributions and by this recognition provide incentive, encouragement, and guidance for others to significantly contribute to their fields. The Masters of the WGO Award is a capstone career award and is given in conjunction with each World Congress of Gastroenterology.

Recipients of the Masters of the WGO Award receive an engraved plaque presented at the time of the General Assembly, recognition in WGO publications and on the website. Recipients may also use the title of “Master of the WGO” and the letters “MWGO” in conjunction with their name.

@Orlando, FL

Figure 2-5 Our activity won “Master of the WGO” Award in October, 2017.

The 11th Asia Telemedicine Symposium

Kuala Lumpur, Malaysia

2017.12.15-16

Figure 2-6 The 11th Asia Telemedicine Symposium was successfully organized at Malaya Univ., Malaysia.

Figure 2-7 Many engineers were trained for a month in Kyushu University Hospital.

Figure 2-8 Short-term training for doctors expanded to variety of departments.

Patient Security & Copyright Statements

▪ Basic standpoint

The main subject of the conference carried out under this project is remote medical education, not for the direct access to the patient's electronic medical records and the sharing of such medical information. For this purpose, no patient's personal information, including, but not limited to, name, date of birth or other patient-related information that will enable identification of individuals (hereinafter referred to as the "Patient Personal Information") will be disclosed or used under this project. Such Patient Personal Information will be deleted in advance or will be amended in such a way that no patient can be identified.

1. Conference Recording
2. Publication of materials
3. Conference Streaming
4. Public knowledge of the presented research
5. Patient Personal Information

Figure 2-10 Policy for our telemedicine activities was newly summarized.
