## Major achievements 2020.3-2021.2

1. Impact of COVID-19 pandemic
  - 1) Cancellation of on-site meetings/human exchanges
  - 2) Sharp increase of online meetings
  - 3) Changes in telemedicine styles
2. Asian Week in Kyushu University
3. Projects with Russia and Myanmar
4. 174 programs, 558 sites, 49 countries

Here is a list of major achievements in this fiscal year.

## Domestic Online Programs

Many requests of technical support for variety of programs.

# Technical Support for Congresses

**Medical Informatics**

**Young Academy of Japan**

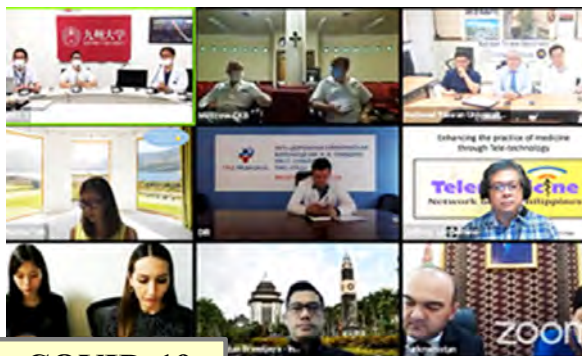

**Pancreatic Surgery**

**Healthcare Administration**

Many congresses switched to online, which led the organizers to hasty preparations in limited time.

# International Online Meetings (1)

**COVID-19**

**Live Lecture for Students**

**Minimally Invasive Surgery**

**Natural Product**

Some programs tried new videoconferencing systems with success.

## International Online Meetings (2)

**National Taiwan U Colloquium**

**Asia Telemedicine Symposium**

**Egyptian Training Report**

**Latin Endoscopy**

Lots of new programs were created with new styles.

## Live Demonstrations

**Hong Kong Endoscopy**

**Russian Endoscopy**

**Indonesian Urology**

There were major technical changes also in live demonstrations.

# Q-AOS Symposium

The second symposium was organized by Kyushu University Institute for Asian & Oceanian Studies (Q-AOS).

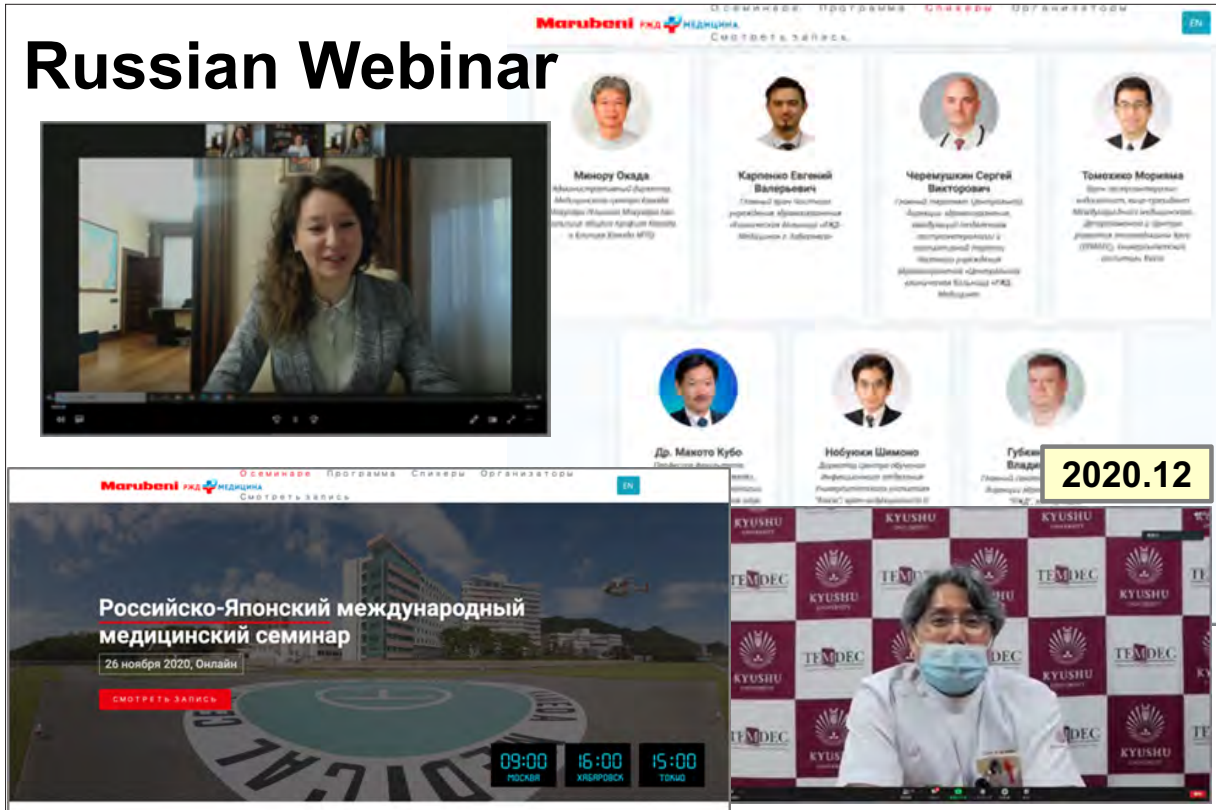

# Bhutan Webinar

2020.12

The original on-site workshop was re-organized as online medical seminar in Bhutan.

Russian seminar attracted many remote participants across the country with expanding medical fields.

All the activities in Myanmar project were also done remotely as shown here.
