# Bulletin of Research Institute for Applied Mechanics

Number 36, February 1972

## CONTENTS

|                                                                                                                                                               |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Some Preliminary Experiments on Flow past a Oscillating Cylinder<br>By Hiroyuki HONJI .....                                                                   | 1   |
| On the Low Pressure Plasma Wind-tunnel of Research Institute<br>for Applied Mechanics<br>By Katsunori MURAOKA and Naoji HIRAKI .....                          | 13  |
| Vortex Wakes behind a Circular Cylinder Oscillating in the Flow<br>Direction<br>By Masakazu TATSUNO .....                                                     | 25  |
| On Vortices Generated in a Wind-tunnel Test-Section<br>By Sadatoshi TANEDA and Nobutaka FUKAMACHI .....                                                       | 39  |
| The Stability of the Boundary Layer on a Circular Cylinder started<br>to Oscillate Concentrically<br>By Sadatoshi TANEDA, Hajime AMAMOTO and Kōji ISHII ..... | 49  |
| Experiments on the Dead Water behind a Circular Cylinder at<br>Transition Reynolds Numbers<br>By Sadatoshi TANEDA, Hajime AMAMOTO and Kōji ISHII .....        | 57  |
| On the Low-Speed Wind Tunnels at the Research Institute for<br>Applied Mechanics<br>By The CONSTRUCTION COMMITTEE .....                                       | 71  |
| Numerical Solution of Collision Problem between a Smooth Bottom<br>Rigid Punch and Semi-Infinite Viscoelastic Plate<br>By Kazuo KAWATATE .....                | 91  |
| (Note)                                                                                                                                                        |     |
| A Flow Visualization by means of Electrolysis Method<br>By Masakazu TATSUNO .....                                                                             | 107 |
| (Summaries of Reports) .....                                                                                                                                  | 113 |

English Summaries of the papers listed above will be inserted in the  
*Reports of Research Institute for Applied Mechanics* in preparation.
